REMINDater

- A personalized calendar plotter & date reminder. ---
- > Prints a colorful calendar of any sequence of months (up to 12) for any year - past, present, or future.
- > Special dates may be entered as data & will be highlighted at the appropriate places on the calendar.
- > Each special date can have a short message associated with it and the message too will be printed.
- > The date/message data can be easily edited & added to.
- > Complete user notes included.

The calendar to the right is an actual size sample of what the utility program REMINDater can do. Please note how the special dates stand out and how the occasion associated with each special date is also printed. The sample is for one month only, but a whole year can be printed in one go. A calendar displaying no special dates can also be selected.

DEMO-PAK 1

- An assortment of 15 plotter graphic demos. -----
- > The first of several planned 1520 "DEMO-PAKS".
- > Contains: FRACTAL PLOT, TURTLE PLOT, SIERPINSKI CURVE, and twelve examples from the 1520 User's Manual.
- > Both colorful "sit back & watch" graphics as well as some that require user input.
- > The BASIC prog. may be listed & studied for insights into how 1520 plot & print commands are used.
- > Complete user notes included.

The fractal plot to the left and the star pattern to the right are both actual plots made with DEMO-PAK 1 and a 1520.
